ELIAS MARGA

AI-POWERED FULL-STACK & MOBILE DEVELOPER

Email: eliasmarga50@gmail.com | GitHub: github.com/eliasmarga50-png
LinkedIn | Telegram: @eliasmarga50_png

PROFESSIONAL SUMMARY

Developer with 1+ year of hands-on experience building web and mobile applications. Focused on practical, problem-solving software—including educational platforms, e-commerce, student services, and AI-assisted creative tools. Enjoys collaborating in teams and turning ideas into usable products; currently growing expertise in AI-powered full-stack and mobile development.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, Responsive Design, React	**Backend**	Python, Django, Node.js, Express.js, REST APIs
Mobile	Flutter, Dart	**Databases**	SQLite, PostgreSQL
Tools	Git, GitHub, VS Code, Postman, Termux	**Collaboration**	Team projects, hackathons

SELECTED PROJECTS

AI Education Platform

Learning platform for programming and technology topics, with authentication, database services, and AI learning features.

Tech: Flutter, Dart, Node.js, Express.js GitHub repository

AI-Assisted E-commerce Platform

Online marketplace connecting buyers and sellers with AI-powered shopping features.

Tech: Python, Django, HTML, PostgreSQL GitHub repository

AI Video Editor (Interface & Backend)

Mobile editing interface and backend supporting video-generation and automated editing workflows.

Tech: Flutter, Dart, Node.js, Express.js, PostgreSQL GitHub repository

Online Student Complaint System

Web platform for students to submit academic and campus complaints to a university committee.

Tech: Python, Django, HTML, SQLite GitHub repository

Visit Ethiopia Places

Website showcasing tourist attractions and destinations across Ethiopia.

Tech: HTML5, CSS3 GitHub repository

EXPERIENCE & ACTIVITIES

Software Project & Hackathon Collaboration
Contributes to university team projects and hackathons; collaborates on planning, development, and building practical software solutions.
Hands-on Development
1+ year of project-based experience developing and iterating on web and mobile applications.

CURRENTLY DEVELOPING

AI Education Platform • AI-powered Video Editor • Advanced backend development, API design, and AI integration
